How to Build a String Art Board — Step by Step

1

Print Blueprint PDF

Print all pages of your purchased PDF on standard paper

2

PDF Pages

Your PDF contains the board diagram, path routing tables, and full-scale dot pages for nail positions

3

Place on a Wood Board

Tile all dot pages onto your board — black dots mark every nail position

4

Insert Nails at Dot Positions

Push a nail or pin through each black dot on the paper, straight into the board

5

Connect Nails with Strings

Follow the path table — wrap string from pin to pin, alternating colors to create the pattern

6

Cut & Remove the Papers

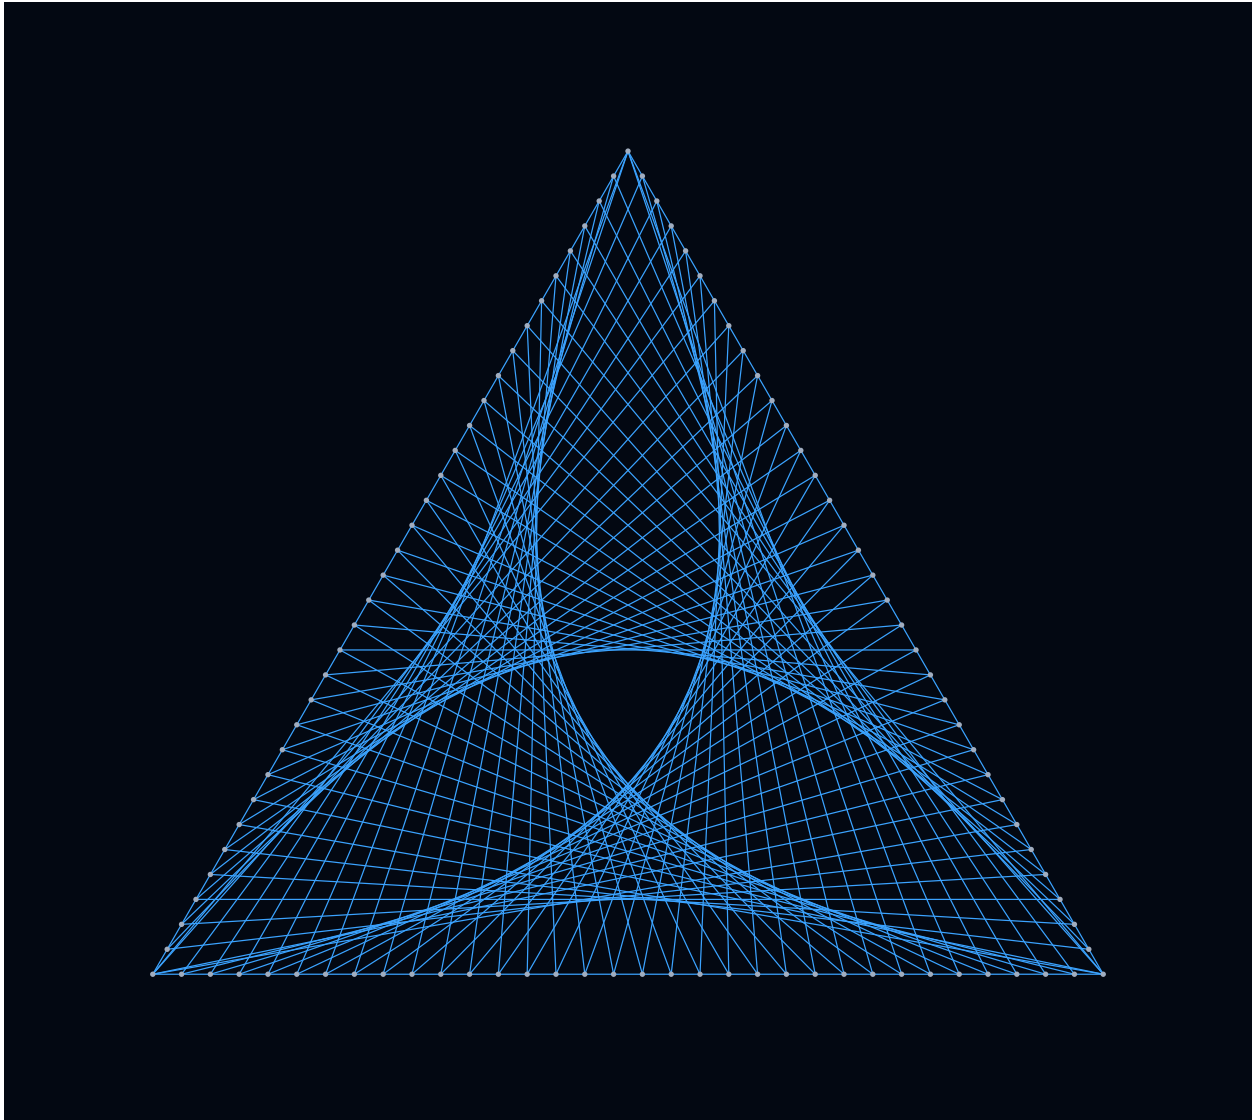

Carefully cut the paper between the strings and lift each piece off — nails and strings stay in place
